TRANSPORT FOR FUTURE

Barcelona 17th May 2018

EUROPEAN SHIPPERS' COUNCIL SEMINAR

TRANSPORT FOR FUTURE

EUROPEAN COMMISSION MOBILITY PACKAGE

Barcelona 17th May 2018

Barcelona Conference Room · World Trade Center
Port de Barcelona

Organised by

Hosted & sponsored by

Port de Barcelona

This seminar will enable you to get ready for the future transport legislation and adapt the policy making in your company. It will cover social dimension, road charges, driving and resting times, position of combined transport and standards for heavy duty vehicles.

The European Commission has published two out of three parts of the large revision of the legislation on road transport, the so-called Mobility Package. The third part is foreseen for May 2018, moment when this seminar will take place. This revision is one of the largest changes of the legislation in years and it is important to carefully observe its impact on the supply chain while getting a 360° view on the future scenario.

The aim of this event is to gather high-ranking officials, experts from the industry and main logistics stakeholders to debate about the changes in legislation of transport that will be triggered from the Mobility Package under the shippers' particular vision.
